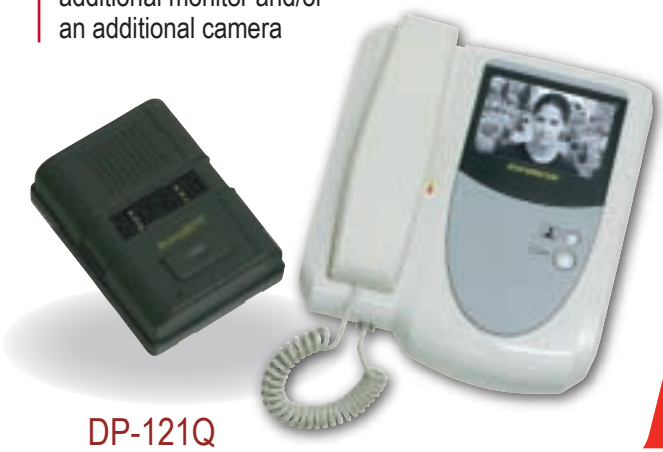
See them, hear them, talk to them, don't fear them

Easily connect an additional monitor and/or an additional camera



DP-121Q

The **Video Door Phone** (Model DP-121Q) displays an image of the visitor in real-time on the phone's monitor, and a built-in microphone and speaker on the camera unit lets users communicate with visitors. Authorized visitors can then be granted entry with a push of a single button.
